-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, lines 3 and 10, the phrase "or the like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

Regarding claim 3, line 3, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Regarding claim 4, line 4, the phrase "or the like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

### ***Information Disclosure Statement***

Applicant submitted an IDS on 8-17-2006 and referred to a PTO-1449 that is to be made of record. The PTO-1449 was not received, but the foreign language

Art Unit: 3725

documents were. Applicant is requested to submit a copy of the 1449 with the response to this action so that the examiner can consider the references and initial.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 3-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Cole et al. (5,272,798). Cole discloses a descaling assembly (45) comprising spray nozzles (60a,60b,66a,66b), hydraulic drives and piping (col. 5, lines 32-44) that are included in a self-contained spray chamber unit (50) having walls (52,54,56,57,58) wherein the spray nozzles are mounted directly to a front wall (54). The spray nozzle assembly (45) includes a pumping motor (75) that is mounted on a polygonal platform (76). The platform (76) and descaling assembly (45) are mounted on a platform foundation surface (30) having connections that are coupled by bolts (77) and by a welded connection (26b) as shown in figure 4. In figure 4, a tubular conduit (78) for descaling media is shown to project from within the foundation surface (30) to an opening in the spray chamber (col. 6, lines 3 and 4). Within foundation (30), a salt furnace is located that includes screens, filters and a sludge pan (74c). Cole discloses (col. 7, lines 3-21) that the descaling assembly (45) and the pump (75) are removable from the platform (76) by removing bolts (77) and spray assembly fasteners so that the pump and nozzles can be serviced.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cole et al. (5,272,798) in view of Wilson (4,471,642). Cole does not disclose that the frame has adjusting feet and is transportable. Wilson teaches a frame foundation (13) having adjustable feet (14) for supporting an industrial installation comprising a roll stand wherein the frame foundation is movable from a rolling mill line to a service position. It would have been obvious to one skilled in the art at the time of invention to provide the frame of Cole with adjustable feet for positioning the descaling assembly and to provide the frame with removability from the line in order to service the descaling assembly.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
